JUN. 20–AUG. 11 • 555 WEST 24TH STREET

True to form for Höller, this show has the feel of a funhouse, with revolving, mirrored doors and giant, flying mushrooms that are both enchanting and interactive. One room holds *Dice (White Body, Black Dots)* (2014), a giant, fibreglass die that, like a piece of a playground equipment, is meant for kids to climb into and through.
